

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Bacteria Monitoring & Reporting Requirements Not Met

Kensington

The _____ water system recently violated drinking water monitoring requirements.
(name of water system)

Although this is not an emergency, as our customers, you have a right to know what happened and what we are doing to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the month(s) and year August 2011

of _____ we did not monitor or complete all monitoring or testing for bacteria and
(month(s) and year)

therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the month we were supposed to test for bacteria, how many samples we were supposed to take, how many samples were actually taken, and the date on which make up samples were (or will be) taken.

Contaminant	Check one or both	Number of samples we were required to collect	Number of samples we collected on time	When all samples were (or will be) collected
Total Coliform Rule sample(s)	<input checked="" type="checkbox"/>	5	0	Within 1 week As long as the well is working properly
Groundwater Rule source water sample(s)	<input checked="" type="checkbox"/>	1	0	Within 1 week As long as the well is working properly

Our well pump was struck by lightning in mid August when our samples were due.

Steps We Are Taking: _____
(describe corrective action taken to prevent future monitoring violations)

The repair wasn't completed until 9/21/11. New samples will be sent to DES so we'll come into compliance.

We anticipate resolving the problem within _____ 10 days
(estimated time frame). For more information, please
